This brochure can only provide a glimpse of the all-around education we offer.

At Global Jaya School, "Learning is the lasting growth, change and development of knowledge, skills, understanding, and behaviour." Our teachers and students view learning as a holistic endeavour that combines academic success with the application of real-world skills, the ability to think critically and creatively to solve problems, and the development of behaviours and attitudes that allow them to think both locally and globally.

INTERNATIONAL MINDEDNESS

International mindedness is central to our educational programme, the heart of our curriculum. Developing students' attitudes, knowledge, and skills as they learn about their own and others' cultures fosters tolerance, respect, and empathy. Through service and action, learning is extended outside the classroom, and related to the reality of the world beyond the school where it results in broader social impact.
